

# Barbarians

It all started at the local pub  
Beer and karaoke, beer beer and let's leave  
Some room for another glass, come on, another glass  
The way it knocks you down, I'm flying like a rocket  
Feeling kind of gross  
But my liver's used to it  
So give me another glass, come on, another glass  
We're all Israeli here, kind of barbarians  
Raging wild like animals at the Safari  
Being sane means being insane  
And all I want  
Is to let go of this day  
It's just me and you, living on the edge  
Not very sane, not relaxed  
And actually, I'm loving it  
It's unbelievable what alcohol does to you  
The whole world seems much prettier suddenly  
Not very sane, not relaxed  
And I'm loving it  
My heart is pounding like goblet drums at a tavern  
How the hell can I forget about her?  
Give me another glass, come on, another glass  
But I don't gotta worry  
I got a substitute therapist  
Dude, the bartender girl won't stop pouring  
So babe, give me another glass, come on, another glass  
We're all Israeli here, kind of barbarians  
Raging wild like animals at the Safari  
Every night is bar to bar  
And all I want  
Is to let go of this day  
It's just me and you, living on the edge  
Not very sane, not relaxed  
And actually, I'm loving it  
It's unbelievable what alcohol does to you  
The whole world seems much prettier suddenly  
Not very sane, not relaxed  
And I'm loving it
